APR 25 1963
FISH & WILDLIFE SERVICE

CURRENT BIBLIOGRAPHY FOR AQUATIC SCIENCES AND FISHERIES

List of Periodicals Searched Regularly

Prepared by

BIOLOGY BRANCH, FISHERIES DIVISION

FISHERIES DIVISION, BIOLOGY BRANCH
FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS
Rome, January 1961

PURPOSE AND PREPARATION OF THIS DOCUMENT

This Technical Paper is a check-list of the periodicals which are searched regularly for entries for the Current Bibliography for Aquatic Sciences and Fisheries. It brings up to date CBASF 2(1):Supplement, and includes periodicals received by the FAO Library, FAO Fisheries Biology Branch and its staff members, and also periodicals searched systematicall and annotated by various collaborators. The list has not, however, been carefully checked and may inadvertently contain the names of periodicals which have ceased publication before 31 December 1960, or other similar errors.

FAO FISHERIES DIVISION BIOLOGY BRANCH DOCUMENTS

Two series of documents other than those prepared solely for FAO internal use are sued by the Biology Branch. These documents are not official FAO publications; they e given a restricted external distribution and this fact should be indicated if they e cited. Most of the documents in these series are prepared as working papers for etings, or are summaries of information for the use of member governments, organizations, stitutes and specialists concerned. The series are :

FAO Fisheries Biology Technical Paper	FB/T(no.)
FAO Fisheries Biology Synopsis	FB/S(no.)

ecial groups of documents within these series are identified by the following symbols:

RE Indexed lists of names and addresses of experts drawn from the Register of Experts maintained by Biology Branch. (Technical Papers series).

CB Technical Papers concerning the preparation of the Current Bibliography for Aquatic Sciences and Fisheries

CART Synopses of information concerning the living aquatic resources of certain countries and regions

SAST Synopses of data concerning certain species and fish stocks

MAST Methods and subjects synopses

OT Oceanographic synopses

IT Limnological synopses.

mbers following these symbols are for classifying the document, using the codes of e "Current Bibliography for Aquatic Sciences and Fisheries" indexes.

Some documents may carry other identification numbers if, for example, they ve been contributed to a meeting for which papers have been marked according to another stem; in requesting copies of documents it is sufficient, however, to quote the "FB" mber given at the top right-hand corner of the cover sheet.
